TREASURY  
RECRUITMENT  
CO

TreasuryRecruitment.com

Established in 2002, The Treasury Recruitment Company build relationships with candidates throughout their treasury careers.

They do not call us when they must move, they call us when they feel it is the right time to move.

This means that our clients are able to access shortlists of treasury professionals who are not actively seeking other positions but they will consider a career move through us.

They trust us to look after their careers and we never take that level of candidate trust for granted.

**After all it is what got us here today.**

“

Throughout the recruitment process Mike set the right expectations which were more than met thus making the whole experience a pleasant one!

As a candidate you do have some nerves, Mike makes you comfortable and helps you anticipate and better prepare for the interviews.

You almost feel like a friend is taking care of your needs.

Once you have worked with Mike and his team you have experienced the Gold standard, you will not look elsewhere

I highly recommend them for both candidates and companies.

We are proud to support many of the world's top businesses in building their Treasury teams from Treasury Assistant to Global Treasurer.

We understand the importance of hiring great people and our sole purpose is to support you in finding yours.

We don't believe in advertising on generic job boards and hoping for results.

Our key focus is to identify candidates' others can't.

How do we do this?

It's simple...

**Our network.**

We understand a 'one size fits all' approach does not always work.

Our focus is to make the process as seamless as possible but to ensure we deliver results.

We offer three flexible service solutions.

### **CONTINGENT**

Traditional method used for recruiting junior positions. Usually targeting only those candidates that are actively seeking a new role. Often used as a multiple agency approach where everyone is instructed at once.

### **EXCLUSIVE**

Working with one dedicated recruitment partner, lessening the risk to both parties. This approach still offers the benefit of 'pay on success' but the campaign is managed in a targeted, time-defined and controlled manner.

### **RETAINED**

Involving payment in two or three stages based on commencement, shortlist and completion of the assignment. This is the preferred solution for mid to senior level roles or those requiring a confidential search.

- ◆ We only work in treasury and as such are true specialists in this field.

“

I have been lucky to have worked with Mike over the last 10 years and it is his professionalism and communication that places him and the team head and shoulders above the opposition. His commitment to excellence, aligned with a thorough understanding of the task as regards to the role and his ability to source candidates is key.

I have been placed by Mike into a senior role and I have had him place candidates into my team, and the entire experience has been in a word – exemplary.
